MEMORANDUM FOR THE RECORD

SUBJECT: Followups to the Director's Briefing of the Joint Committee
on Atomic Energy on 16 February 1972

1. I talked with George Murphy, Joint Committee on Atomic Energy staff, today to resolve any question that might exist regarding additional material the Agency should provide for the hearing record in response to questions raised by the Committee members at the 16 February 1972 briefing. Mr. Murphy had previously given us the impression he thought it was not necessary for us to provide anything further. Today, however, he said information should be given on the following items:

a. Page 38 - An answer to Representative Price's question as to what we knew about cost overruns on the French carrier-based Jaguar aircraft.

b. Page 66 - A response to Representative Aspinall's question about the cost of the reactor fuel reprocessing facility near Dimona.

c. Page 74 - Verification of the [redacted] as the total annual Soviet production of all nuclear submarines.
